1) The FAHS Facebook page launched

The FAHS has launched a FACEBOOK page <https://www.facebook.com/FederationAHS/>

Screen Shot from the Federation Facebook page

The FAHS Facebook page increases our digital presence across Australia and internationally. Through up to date posts and links to campaigns, heritage matters and historical news items we aim to dynamically build our network. Aside from connecting with people already in the FAHS network, the presence of a Facebook page attracts new supporters and brings attention to the FAHS web site, e-Bulletin and Newsletter.

Via the FAHS newsfeed we can gather all the postings from our constituent members and cross post items. We welcome requests to like your organisation and invite all historical societies to access our news feeds by 'liking us' – find out and share news from around Australia.

2) The FAHS Survey of historical societies 2016

Stage One of the FAHS Survey of historical societies is up and running. Historical societies across Australia are encouraged to complete the survey by 25 March 2016.

The preservation, dissemination and promotion of local historical knowledge presents significant challenges in the digital era, and the survey will identify services required in supporting societies in this endeavour.

This first stage aims to provide an overview of membership numbers, premises, the contribution of volunteers, local and state government support, collections, the use of computers, and society activities. This will be followed by two more surveys in 2016, which will focus on collection management including digitisation and accessibility, and on governance matters such as succession planning, financial management and strategic planning.

The results of the survey will be available on our website <http://www.history.org.au>.

There are 35 questions in the survey, most of which are in a “check box” format. We estimate that someone with a good knowledge of the operations of your society (such as an office-bearer) could complete it in 15-20 minutes.

We request that your society appoint a person to fill out this survey to be completed by 25th March 2016.

Our Online Outreach Officer, Dr. Bernadette Flynn fahsbflynn@gmail.com is available to assist with the survey.

We need your help so we can help you.

3) National Library's Trove services under threat

The National Library of Australia – the home of the Trove brings together content from libraries, museums, archives and other research organisations and provides tools to explore and build.

Last week, the President of FAHS wrote a letter of concern to Senator the Hon Mitch Fifield, Minister for the Arts, regarding recent funding cuts to the National Library of Australia. Of particular concern to the FAHS and historical

societies is the threat to one of the most valuable online research tools for historical research, Trove. As a direct result of these cuts, the National Library will cease aggregating content in Trove from museums and universities unless it is fully funded to do so.

In the last decade and a half TROVE has facilitated and revolutionised historical research through its marvellous provision of access to newspapers and a myriad of other material via the web. It has become an invaluable tool that is used by millions of researchers and is supported by an enormous community volunteer effort.

The ‘efficiency dividend’ cutbacks imposed on the NLA are having a drastic effect on many of its services, but will have a particular impact on researchers who do not live in Canberra, which includes the vast majority of Australians. TROVE, it seems, will be somewhat more limited and in particular will no longer be able to aggregate or harvest new material from other collections, a decline in the service that is very disturbing for the hundreds of societies that have been digitising their collections in preparation for harvesting.

There have been numerous messages of support for Trove since the cuts were announced, and a Facebook page, [Fund Trove](#) has also been set up to address these concerns.

4) Proposed changes to copyright law

GLAM ROUNDTABLE

The 4th meeting of the GLAM Digital Access to Cultural Collections peak bodies group was held in Melbourne on 25th Feb. The primary purpose of GLAM Digital Access is to clarify a shared vision and approach to digital access to Australia's cultural collections through the development of a national framework. The FAHS was represented by Don Garden.

One item that was mentioned and discussed at the GLAM meeting was the proposed changes to copyright law. In particular, it appears likely that there will be legislation to put unpublished materials on a similar basis to published material - i.e. rather than unpublished materials remaining 'permanently' under copyright as they are at present there will be a period fixed at which point they will no longer be restricted.

This is a major achievement and will have a significant impact for history researchers and collection management.

5) New Multi-lingual Tour Brochures for the Commissariat Store, Brisbane

German and Spanish tour brochures developed by the RHSQ

The RHSQ is very proud to launch our new multilingual brochures, which provide German and Spanish-speaking visitors an easy to understand self-guided tour through the Commissariat Store.

Congratulations to the RHSQ volunteer guides Phil and Ilona who took on the project. French and Mandarin guide brochures are currently being worked on and will be available shortly.
